

# WE STAND BY OUR BAY

Members of the Village Point Foundation share a deep love for Daphne's history and culture. WE STAND so that the natural beauty of Daphne's waterfront is preserved, enhanced and made available to all of our citizens.

Citizens who are passionately committed to securing key Daphne bay frontage for public access and enjoyment – **This is Village Point Foundation**

Our goal is to create an urban refuge while conserving our shoreline habitats and enhancing Daphne's most unique asset.

We have forged relationships between citizens and officials to identify funding opportunities, projects and sites which will enrich the Daphne bay front experience.

The Foundation's initial focus was acquisition of Village Point Park Preserve, which contains the historic Jackson Oak, the D'Olive Cemetery and former site of Native American activity, a French colonial settlement and the D'Olive Plantation.

Today the Foundation is committed to the maintenance and improvements of these areas. Expansion is on the horizon with wetland acquisitions and improved access to the entire stretch of waterfront sites.

**You are important** not simply as a source of membership funding. You are important as one who will stand with us for our waterfront. Numbers are crucial in attaining government support and funding to preserve a beloved way of life.

**So STAND WITH US**

**mission**

*"We are dedicated to developing educational and park facilities in Daphne that will give all citizens of our area access to beauty, the environment and history of Mobile Bay. We are committed to protect, preserve and enjoy this heritage for future generations."*

- HISTORY
- NATURE
- ECOLOGY
- WILDLIFE
- PRESERVATION
- ACCESS
- RECREATION

**ACCOMPLISHED**

Advocated for 3,000 feet of shoreline and 90 acres of bay front property for preservation and public access:

- Bayfront Park
- Village Point Park Preserve
- Shriner Property

Helped to obtain over a million dollars in grants for improvements, boardwalks, invasive exotic plant removal, cemetery preservation and archaeological research

**THE FUTURE**

- Village Point Park Preserve
- Improved trails
  - Wayfinding & feature signage
  - National Historic Register listing

- Bayfront Park
- Amphitheater
  - Bayfront Drive Streetscape

Forever Wild proposed acquisition of wetlands north of I-10 to connect to Gator Boardwalk
